## “Balancing Skin Health and Medical Adhesives Using the S.P.A.R.E. Process”

Presented by Laura Rutledge, MSN, RN, CRNI,  
3M Clinical Research Specialist.

### Objectives:

1. Refresh your knowledge of general skin anatomy and adhesive properties.
2. Define S.P.A.R.E. and list the considerations related to each letter of the S.P.A.R.E. acronym.
3. Demonstrate the appropriate techniques for applying and removing adhesive film dressings.
