

3M™ Remover Lotion

The easy, gentle, effective way to remove 3M™ DuraPrep™ Surgical Solution (Iodine Povacrylex [0.7% available iodine] and Isopropyl Alcohol, 74% w/w) Patient Preoperative Skin Preparation — plus iodophor color, tincture of benzoin and materials soluble in alcohol.

3M™ Remover Lotion

Easy, gentle, effective

- Removes iodophor color, tincture of benzoin, prep film and other materials soluble in alcohol
- No scrubbing necessary
- Wipes away quickly and easily in as little as 25 seconds

Does not compromise tape or dressing adhesion

Contains non-irritating and fragrance-free skin softeners and a moisturizer

Two sizes available

- 4 oz. bottle for multiple procedures
- Convenient unit dose packets for outpatient surgery — ideal for patients to take home, with easy-to-read instructions on each packet

Application Instructions

Dispense from 4 fl. oz. bottle or unit dose packet.

Completely cover the area with the lotion.
No scrubbing is required.

Wipe away lotion and residues in one easy motion.
