Slide. Reposition. Apply. Done.

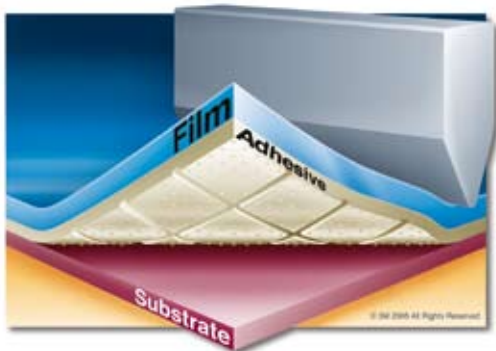

Speed Up Graphic Installation

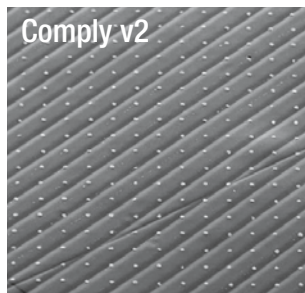

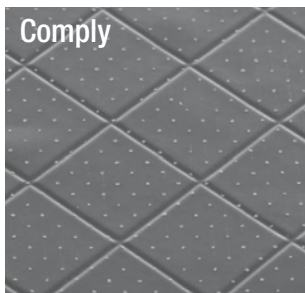

The patented technologies in 3M™ Controltac™ Graphic Film Series 180Cv2 provide effortless slideability, allowing the graphic to be repositioned if necessary and permit fast, easy bubble-free installation. These films also offer superior initial adhesion.

- Fast and bubble-free application
- Slideability and easy repositioning
- Long term use
- Up to 10 years 3M™ MCS™ Graphics Warranty

Smoother Image, Higher Gloss

3M Controltac Graphic Film Series 180Cv2 delivers the the benefits of easy installation and non-visible air-release channels for a smoother appearance and higher gloss. With the new Comply v2 adhesive graphics are easy to install while delivering a smooth, high gloss surface that looks great at a distance and up close.

Benefits:

- Fast and time saving application
- Perfectly smooth finish

Premium Graphics for curved Surfaces with Rivets and Corrugations

The film series Controltac™ 180Cv2 has been especially developed for screen printing and piezo ink jet printing. It provides excellent hiding power and is particularly suited for large format, high quality, long-lasting graphics. This premium cast graphic film series is a particularly good choice for longer-term campaigns and corporate image advertising.
