

STALLED WOUNDS

3M™ Tegaderm™ Ag Mesh Dressing with Silver

A fast-acting, long-lasting antimicrobial barrier in an affordable silver dressing

- Effective ionic silver
- Rapid reduction of a range of microbes, including antibiotic-resistant bacteria (MRSA and VRE)
- Ready to use (sterile water not required to activate)
- May be used as a primary dressing, with absorbent wound fillers or packed into tunnels or undermined areas

3M™ Tegaderm™ Foam Dressing (nonadhesive)

Fast absorbency, plus breathable film barrier means total fluid management

- Reduced potential for skin maceration
- Top film is breathable, yet provides a barrier to outside contamination and exudate strike-through¹
- Non swelling

3M™ Cavilon™ No Sting Barrier Film

For Periwound Skin Protection

- Fast-drying, sting-free alcohol-free protection
- Sterile, non-cytotoxic — will not interfere with skin or wound healing

¹Laboratory testing has proven that the film provides a barrier against HIV-1 and HBV while the dressings remain intact without leakage.

Disclaimer:

HCPCS codes have been provided to assist you in the preparation of Medicare Part B claims. Please note, however, that the reimbursement information provided by 3M Health Care and its representatives is intended to provide general information relevant to coverage and coding for 3M products. Insurers' reimbursement policies can vary and the use of the codes discussed here does not guarantee that an insurer will cover or pay at any particular level. Health care providers should exercise independent clinical judgment in choosing the codes which most accurately describe the products provided.
