Applied to Life.™

# Hit a home run with your short-run signs.

Create custom bright and durable signs  
with 3M™ ElectroCut™ Film Series 1170.

# Don't sell your short-run signs short.

Save time and money on your inventory using 3M™ ElectroCut™ Film Series 1170. Available in several colors, this versatile transparent film is a cost-effective way to produce great-looking custom or variable message traffic signs.

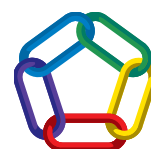

- ▶ Adhesive-backed acrylic film (3 mils)
- ▶ Outstanding weathering performance with minimal fading over time
- ▶ High-performance synthetic release liner with lay flat properties for plotter cutting
- ▶ No clear coat required
- ▶ Meets the durability performance of screen process inks

Available in blue, black (opaque), brown, green, orange, red and yellow

## Part of the 3M™ Matched Component System™ Product Line

Tested and trusted to perform for total peace of mind. 3M matched components of sheeting, inks and laminates are designed to work together to meet the needs of your application—backed by a warranty of up to 12 years.\*

### High Quality

Over eighty years of research and development in retroreflectivity, colorants, optics technology and visibility performance result in durable materials for traffic control and guidance signs.

### Greater Security

3M sheeting and components are backed by one of the best warranties in the traffic safety industry. This ensures that you are offering full value to your end-use customers.

### Excellent Service

3M service includes experienced technical service representatives, a 24-hour emergency hotline and free training and clinics to provide production improvement and troubleshooting advice.

\*For information on the 3M MCS Warranty for Traffic, including Legibility Period and Retroreflection Retention Period, its terms and conditions, and the exclusive limited remedy, please refer to the 3M MCS Warranty Bulletin.
