Product Uses
Designed to be used as a reinforcement material during the repair of holes, cracks, or tears in Metal, SMC, and Fiberglass panels. 3M™ Long Strand Fiberglass Reinforced Filler offers excellent sag resistance and high build and gap spanning characteristics.

Performance Properties
Sanding Time: 20 minutes @ 77F
Lap Shear Aluminium to Aluminium: ASTM D3163 1400 + - 100PSI
Lap Shear Steel to Steel: ASTM D3163-84 2000 + - 100PSI
Tensile Strength: ASTM D638-82 3450 + - 100PSI
Shrinkage: Less than 0.35%
Shore D Hardness: 10 min: 40 + -5, 20 min: 50 + -5, 30 min: 60 + -5, 60 min: 65 + -5
Minimum hardener: 1.5%
Maximum hardener: 2.75%

Handling and Application Information

Directions for Use
1. Grind clean surfaces with a grade 36 3M™ abrasive (such as Roloc).
2. Apply the required amount of 3M™ Long Strand Fiberglass Reinforced Filler to a clean mixing surface. Do not use discarded cardboard. Apply a 1.5 inch long strip of creme hardener to golf ball-sized amount of filler.
3. Mix filler and creme hardener thoroughly, to a uniform color.
4. Apply mixed filler to surface, being sure to "wet out" the surface completely. Apply additional filler in layers, building up the damaged area higher than the surrounding surface. Allow curing time of 20 minutes.
5. Sand or grind to contour with grade 36 - 80 3M™ abrasives.
6. Apply a body filler such as 3M™ Zebra™ Advanced Lightweight Filler to achieve final shape and feathered edge.

Applications
Designed to be used as a reinforcement material during the repair of holes, cracks, or tears in Metal, SMC, and Fiberglass panels. 3M™ Long Strand Fiberglass Reinforced Filler offers excellent sag resistance and high build and gap spanning characteristics.

Storage and Handling
HANDLING
Do not eat, drink or smoke when using this product. Wash exposed areas thoroughly with soap and water. Keep out of the reach of children. Keep container closed when not in use. Avoid breathing of dust created by cutting, sanding, grinding or machining. For industrial or professional use only. Avoid eye contact with dust or airborne particles.

STORAGE
Store in a dry area at 65-80 deg F for optimal shelf life. Shelf life: one year from date of manufacture.

Precautionary Information
Refer to Product Label and Material Safety Data Sheet for Health and Safety Information before using this product 06814
