Goodbye, nails. Hello, competitive edge.

3M™ Spray Adhesives secure drain board to waterproofing membrane and polystyrene to drain board quickly and without nails, creating labor savings that help you outbid the competition.

Goodbye, nails. Hello, competitive edge.

3M™ Spray Adhesives make it possible to install drain board efficiently and securely without using nails that can puncture your waterproofing system. With spray adhesives, you can cover large surface areas quickly, and training can be done in minutes, not hours. 3M™ Spray Adhesives are easy to maneuver in tight spaces like foundational trenches, and adjustable spray patterns help you work around obstacles. Plus, the formulas are engineered to perform in damp, below-grade conditions.

Waterproofing solutions

3M™ HoldFast 70 Adhesive

- Very fast tacking - spray and stick
- Bonds polystyrene when applied within recommended coverage

3M™ General Purpose 60 CA Adhesive

- Very high coverage for great value from every cylinder
- Meets California VOC regulations
 - Complies with SCAQMD rule 1168, contact adhesive
- Not recommended for use on polystyrene foam

3M™ Polystyrene Insulation 78 Spray Adhesive (24 oz. aerosol)

- Fast, easy pushbutton spray to attach polystyrene to concrete and cinder block
- Controlled spray pattern minimizes overspray and clean-up
- Spray adjusts 1-5" for targeted application, most efficient use of adhesive with less waste
- Bonds with strength greater than the foam itself
- Bonds without attacking the foam

3M™ Hi-Strength 90 Spray Adhesive (24 oz. aerosol)

- Stick poly draping to itself, concrete, brick, metal, wood, and more
- Apply to both surfaces for a fast high strength bond

Available in regular, inverted and low VOC
