

3M™ Coban™ 2 Layer Compression System

“My patients appreciate  
being able to wear  
their own shoes”

**3M**

“When my patients wear  
**Coban 2 Layer [Compression System]**,  
they don’t have to purchase  
special post-operative shoes.

**Critical & Chronic Care Solutions Division**  
**3M Health Care**  
2510 Conway Avenue  
St. Paul, MN 55144

Post-operative shoes are unsafe for a person with an unstable gait and can potentially lead to more injuries. Additionally, my patients tell me how comfortable Coban 2 Layer [Compression System] is. It’s been easy to train my new nurses to use, making it much more time-efficient than other compression systems.”

— **Marcia Hauter, M.D.**, Wound Healing Center, Normal, IL

Dr. Hauter is just one of the many healthcare professionals who have switched to 3M™ Coban™ 2 Layer Compression System because it’s:

- **Comfortable:** Thin, lightweight design allows patients to wear normal shoes.
- **Effective:** Delivers sustained compression and less slippage than other leading compression wraps.\*
- **Versatile:** For all types, sizes and shapes of patients with ABI  $\geq$  0.8.
- **Easy to Use:** Applied in two easy steps, which reduces training time.

\* Clinical data on file at 3M.
