BREW110-MS/BREW115-MS

3M Purification Inc. Water Filtration Products ModelS BREW110-MS and BREW115-MS single cartridge water filtration systems help provide high quality water for the perfect cup of coffee or tea by reducing the effects of sediment and chlorine taste and odor at flow rates up to 1.0 gpm (3.8 lpm). A proprietary slow release scale inhibitor reduces the ability of calcium and magnesium to form on the heating coils causing downtime and unscheduled service maintenance.

- BREW110-MS combines scale reduction with cyst, sediment and chlorine taste and odor reduction for up to 3,500 gallons (13,249 liters).
- BREW115-MS combines scale reduction with sediment and chlorine taste and odor reduction from higher turbidity water for up to 3,500 gallons (13,249 liters).

PRODUCT BENEFITS

- Consistent great tasting brewed coffee and tea from water with reduced sediment and chlorine taste and odor.
- Better equipment protection from reduced sediment particles that can clog the spray head.
- Reduced scale formation by the controlled release of proprietary scale inhibitors as tested by 3M Purification.
- NSF Standard 42 and/or FDA CFR-21 compliant materials.
- Tested and verified by manufacturer’s laboratory to Standard 53 for cyst reduction (HF10-MS replacement cartridge).
- Valve-in-head design simultaneously shuts off and vents water, allowing for simple and virtually trouble-free cartridge change-outs without the need to shut off the upstream feed water.
- Sanitary Quick Change (SQC) encapsulated cartridge design allows for fast and easy cartridge change-outs with a 1/4 turn.
- 3/8” FNPT horizontal inlet and outlet ports allow direct or easily adaptable connections to existing plumbing lines.
- Optional pressure gauge allows monitoring of downstream water pressure.

¹Tested and verified by manufacturer’s laboratory
If water pressure exceeds 125 psi (862 kPa). If your water pressure exceeds 80 psi (552 kPa), you must install a pressure limiting valve. Contact a plumbing professional if you are uncertain how to check your water pressure.

Do not install on hot water supply lines. The maximum operating water temperature of this filter system is 100°F (37.8°C).

Do not install if water pressure exceeds 125 psi (862 kPa). If your water pressure exceeds 80 psi (552 kPa), you must install a pressure limiting valve. Contact a plumbing professional if you are uncertain how to check your water pressure.

Do not install where water hammer conditions may occur. If water hammer conditions exist you must install a water hammer arrester. Contact a plumbing professional if you are uncertain how to check for this condition.

The disposable filter cartridge MUST be replaced every 12 months, at the rated capacity or if a noticeable reduction in flow rate occurs.

**LIMITED WARRANTY**

3M Purification Inc. warrants this Product will be free from defects in material and manufacture for five (5) years from the date of purchase: The filter cartridge or filter membrane is warrantied to be free from defects in material and manufacture for one (1) year. This warranty does not cover failures resulting from abuse, misuse, alteration or damage not caused by 3M Purification Inc. or failure to follow installation and use instructions. No warranty is given as to the service life of any filter cartridge or membrane as it will vary with local water conditions and water consumption. 3M PURIFICATION INC. MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT TO ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OR CONDITION ARISING OUT OF A COURSE OF DEALING, CUSTOMER OR USAGE OF TRADE. If the Product fails to satisfy this Limited Warranty during the warranty period, 3M Purification Inc. will replace the Product or refund your Product purchase price. This warranty does not cover labor.

**WARNING:** Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used on disinfected water that may contain filterable cysts. EPA Establishment #070595-CT-001

3M Purification Inc. recommends regularly scheduled maintenance and replacement of the filter cartridge(s) in order for the product to perform as advertised/sold. 3M Purification shall not be liable for system failures due to improper maintenance.

**IMPORTANT: INSTALLATION TIPS**

These installation tips are for informational purposes only and are not intended to be used as actual installation instructions. CAUTION: To reduce the risk associated with property damage due to water leakage:

- Read and follow Use Instructions before installation and use of this system.
- Installation and use MUST comply with all state and local plumbing codes.
- Protect from freezing, remove filter cartridge when temperatures are expected to drop below 40°F (4.4°C).
- Do not install on hot water supply lines. The maximum operating water temperature of this filter system is 100°F (37.8°C).
