

Waterproofing Membrane Compatibility Testing

Technical Bulletin

March 2019

3M™ General Purpose Adhesive 60CA and 3M™ Holdfast Cylinder Spray Adhesive 70 have been tested for compatibility to determine if there would be any adverse effects and/or reactions to the membrane products. For products that are to be applied directly to concrete, the adhesive was applied to the exposed side. For products that would be applied over top of a waterproofing/damproofing membrane, the adhesive was applied to the side that would face the membrane. The adhesive was applied at approximately 2.5 gm/sq ft, stored at room temperature for 14 days, and then visually inspected for any changes in the original appearance of the product.

Testing of 3M™ Cylinder Adhesives on Waterproof Membranes

*5012 and 5035 are the same surface for adhesive contact, they have a different backside.

**5012B and 5035B are the same surface for adhesive contact, they have a different backside.

Waterproofing Membrane Compatibility Testing

Size and Expected Coverage

Product	Cylinder Size	Cylinder Adhesive Net. Wt. (lbs.):	Sq. ft. Coverage @ 1.0 gm./sq.ft. (dry wt.):	Sq. ft. Coverage @ 2.5 gm./sq.ft. (dry wt.):
3M™ General Purpose 60CA	Large	27.2	5,186	2,075
3M™ Holdfast 70	Large	27.3	2,590	1,036

Storage

Store product at 60-80°F (16-27°C) for maximum shelf life. Lower temperatures can reduce normal storage life. Lower temperatures are for use in a temporary nature. Rotate stock on a “first in-first out” basis.

Shelf Life

When stored at the recommended conditions in original unopened containers, product has a shelf life of 15 months from date of manufacture.

Precautionary Information

Refer to Product Label and Material Safety Data Sheet for full precautionary information. For additional health and safety information, call 1-800-368-5768.

Technical Information

The technical information, recommendations and other statements are based upon tests or experience that 3M believes are reliable. No information is not guaranteed.

Product Use

Many factors beyond 3M's control and uniquely within use and performance of a 3M product in a particular application determine the use and performance of a 3M product, user is solely responsible for determining whether it is fit for a particular purpose and suitable for the intended use.
