painful tooth sensitivity

Warnings

- when using this product, do not use for sensitivity longer than four weeks unless recommended by a dentist
- stop use and ask a dentist if sensitivity persists or worsens
- sensitive teeth may indicate a serious problem that may need prompt care

Keep out of reach of children. If more than used for rinsing is accidentally swallowed, seek medical attention or contact a Poison Control Center immediately.

Directions

adults and children 6 years of age and older:

- do not use before mixing with water
- use once daily after brushing your teeth with a toothpaste or as directed by your dentist
- remove cap and replace with pump
- rotate spout counter clockwise to extend
- depress pump until medicine comes to the tip of the pump
- make 2 complete pump depressions into cup provided (1/8 oz)
- add tap water to line (1 oz) on cup
- mix using bristle end of toothbrush
- vigorously swish rinse between your teeth for 1 minute and then spit out
- do not swallow the rinse
- do not eat or drink for 30 minutes after rinsing
- instruct children under 12 years of age in good rinsing habits (to minimize swallowing)
- supervise children as necessary until capable of using without supervision

children under 6 years of age:

- consult a dentist or doctor

Other information

- products containing stannous fluoride may produce surface staining of the teeth
- adequate toothbrushing may prevent these stains, which are not harmful and may be removed by your dentist
- see your dentist regularly • For Professional Office Use Only
- This product is not intended for home or unsupervised consumer use.

Inactive ingredients glycerin, flavor

PerioMed™ Antimicrobial Oral Rinse Fights Gum Disease and Tooth Decay

With research pointing to links between gum disease and overall health, good oral hygiene has never been more important.

PerioMed antimicrobial oral rinse, combined with a professional treatment program, is an important part of the overall care you need to help control:

- Gum disease
- Tooth decay
- Tooth sensitivity
- Plaque accumulation

PerioMed oral rinse non-alcohol formula provides antimicrobial activity for up to 8 hours¹ and costs about the same as the leading over-the-counter mouthwashes.²

To achieve optimum oral health, remember to:

- Use prescribed medications as directed
- Inform your Dental Professional if you are currently taking any medications
- Brush and floss daily
- Keep your regular dental appointments
- Follow all the instructions of your Dental Professional

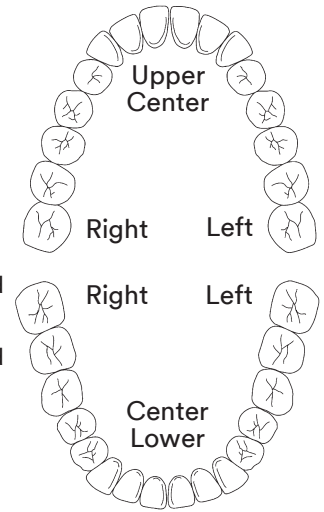

**Available in
Mint and
Tropical Fruit
Flavors!**

Your examination has revealed the following:

Key:

1. Bleeding Gums
2. Gum Recession
3. Gum Tenderness & Redness
4. Gum Pockets
