

Product Change Notice: 3M™ Molded PCB Assemblies, .100” and 2 mm, 1M and 2M Series

Issue Number: 720
Date: May 6, 2008

Product Packaging Change

3M has switched to a new high density polyethylene pin foam used in the packaging of PCB-style assemblies to prevent damage to pins during handling and transit. The new foam is white in color and debris resistant. The pink pin foam that was previously used will no longer be available.

This change is effective immediately and does not affect the form, fit, or function of the assemblies. It only affects PCB connector assemblies that are shipping out of Columbia, MO.

Support Materials

Products affected by this change are listed below:

1M Series	TS-2149	PCB's only
2M Series	TS-2150	PCB's only

Action Required

Please notify your customers as you see fit. If your customer would like to see samples, please let us know.
