Spray, stick and get ahead

3M™ Spray Adhesives offer quick and easy insulation attachment for workflows up to 50% faster than mechanical fasteners.

Spray, stick and get ahead

3M™ Spray Adhesives bond to multiple substrates including unfinished walls, concrete foundations and plywood. As fast as you can spray-and-stick, you can securely attach foam boards and insulation rolls without stress points or penetration holes from mechanical fastening — a big plus when your job is sealing the building. Take advantage of the simplicity of 3M Spray Adhesives to install insulation quickly and with precision.

Foam board essentials

3M™ Holdfast 70 Cylinder Spray Adhesive

- Spray pattern adjusts from 4-12” to cover large surface areas quickly
- Very fast tacking for spray and stick speed
- Bonds polystyrene when applied within recommended coverage
- Bonds to concrete, waterproofing, OSB, plywood, and more
- Bonds with strength greater than the foam itself
- No cleaning or purging of hose and applicator necessary
- Single surface application possible, spray both surfaces for higher confidence

Not available in California

3M™ Polystyrene Insulation 78 Spray Adhesive

- Convenient and portable bonding for concrete, block, OSB, plywood, and more
- Controlled spray pattern minimizes overspray and clean-up
- Spray adjusts 1-5” for efficient use of adhesive and less waste on small area applications and patches
- Bonds with strength greater than the foam itself
- Bonds without damaging the foam
- CARB compliant polystyrene foam adhesive

3M™ Adhesive Remover

- Citrus-based spray dissolves adhesive residue from applicators and other equipment
- Removes unwanted grease, grime, oil, tape residue, tar, ink, and more
- Convenient 24-fl.oz. aerosol for go-to-the-job portability
- Evaporates quickly with minimal residue

Available in low VOC formulation
