3M™ Adhesion Promoter K500NT
Technical Data Sheet

Description
3M™ Adhesion Promoter K500NT is a liquid primer used to improve the adhesion of 3M™ Acrylic Foam and Acrylic Plus Tapes to polyolefin-based materials such as polypropylene, TPO and EPDM. Since formulations and surface energies vary for these materials, each application should be verified through testing. 3M Adhesion Promoter K500NT is specifically formulated to be used with 3M Acrylic Foam and Acrylic Plus Tapes for automotive applications.

Equipment
3M adhesion promoter K500NT can be applied by a gravity feed wipe, knurled roller, sprayer and felt-tipped applicator or other similar type applicator. Applicator heads should be cleaned or replaced regularly. A convenient application system is available through your 3M Automotive Division representative.

Surface Preparation
The bonding surface should be clean and dry. Contaminated surfaces should be cleaned with an untreated, lint-free cloth and an appropriate solvent (typically isopropyl alcohol).*

Application
Shake well before using. Apply a thin, uniform coating to the bonding surface, using the minimum amount that will fully coat the surface. A wet coating thickness of 0.002 inch or less ensures a good application. In general, the drying time under standard conditions (23° and 65% relative humidity) is 30 seconds to 24 hours. Drying time varies depending on the ambient temperature and humidity, as well as the coating thickness. Recommended drying time is 10 minutes to 3 hours under standard conditions. Be sure the primed surface remains free from contaminates prior to laminating the tape. If drying time is more than 24 hours, re-apply the adhesion promoter.
Clean-Up

3M™ Adhesion Promoter K500NT can be removed with acetone solvent.* Vigorous scrubbing may be required. **Note:** When using solvents, extinguish all ignition sources and follow the manufacturer’s precautions and directions for use.

Shelf Life

Two years from the date of manufacture when stored in the original container at 4°C–38°C (40°F–100°F), 0–95% relative humidity, and away from light sources. Storage at lower temperatures for short periods will not affect product performance if the primer is warmed to recommended temperatures before application.

Regulatory Information

Observe proper handling precautions as outlined in the Material Safety Data Sheet (MSDS), which is available on request. The website address for 3M MSDSs is [www.3M.com/MSDS](http://www.3M.com/MSDS).

Contact Information

The information provided in this technical document is intended as a guide for this product. For more information or help in selecting a 3M product for an application, please contact your 3M technical service representative or call 1-800-328-1684.

**Technical Information:** The technical information, guidance, and other statements contained in this document or otherwise provided by 3M are based upon records, tests, or experience that 3M believes to be reliable, but the accuracy, completeness, and representative nature of such information is not guaranteed. Such information is intended for people with knowledge and technical skills sufficient to assess and apply their own informed judgment to the information. No license under any 3M or third party intellectual property rights is granted or implied with this information.

**Product Selection and Use:** Many factors beyond 3M’s control and uniquely within user’s knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer’s application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., OSHA, ANSI, etc.). Failure to properly evaluate, select, and use a 3M product and appropriate safety products, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property. **Warranty, Limited Remedy, and Disclaimer:** Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M’s option, replacement of the 3M product or refund of the purchase price. **Limitation of Liability:** Except for the limited remedy stated above, and except to the extent prohibited by law, 3M will not be liable for any loss or damage arising from or related to the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.
