

3M Used Fluid Disposal Program

Introduction

This program, part of 3M's commitment to product stewardship and customer service, provides pickup of used fluids in the United States, including 3M™ Novec™ Engineered Fluids, 3M™ Specialty Fluids, 3M™ Performance Fluids and 3M™ Fluorinert™ Electronic Liquids. This program is provided through Clean Harbors Environmental Services. Working with Clean Harbors will assure that your used 3M fluids will be managed properly and responsibly.

How to participate

Note: A minimum of 30 gallons of 3M fluid must be shipped for disposal in order to participate in this program. For disposal of less than 30 gallons, costs will be at the customer's expense and will be determined based upon quantity and approved profile of waste.

Send an email

Send an email to 3Musedfluid@cleanharbors.com. Your Clean Harbors account manager will ask you for the following information:

- General information (company name, address, telephone number)
- Name of product being returned
- EPA ID number
- Quantity of used material and size of shipping container (program requires 30 or 55 gallon size shipping containers)

Material profile completion

You will be contacted within five business days to begin the process. A profile of the material will be filled out based on your knowledge of the 3M material and its usage. This information will be submitted for pick up approval. The Clean Harbors account manager will also provide information on all phases of the pick up process.

Clean Harbors makes it easy

Once profile approval is granted; Clean Harbors will schedule the waste pick up from your business. Clean Harbors will furnish you with the completed paperwork and drum labels for your pick up.

About Clean Harbors Environmental Services

With locations throughout North America, Clean Harbors offers a wide range of disposal and recycling services for hazardous and non-hazardous waste. Clean Harbors understands that waste disposal is a challenging, resource-intensive task. We leverage more than 35 years of experience in waste management, advanced technologies and a vast transportation network to provide a single source for all of your waste disposal and recycling needs. And we perform every service with the utmost concern for safety and environmental stewardship.

To return used 3M™ Specialty Fluids, email:
3Musedfluid@cleanharbors.com

The 3M Used Fluid Disposal Program helps you save money!

Note: The 3M Used Fluid Disposal Program is offered only in the U.S. and Puerto Rico.

3M pays for disposal of 3M fluids in quantities of 30 gallons or more:

Return of used 3M fluid	Estimated cost*	Paid by
55 gallon drum	\$750	3M
30 gallon drum	\$575	3M
Paper profiles	\$75	3M
Fuel surcharge	\$9.85	3M
California fuel surcharge	\$13.05	3M

* Costs are estimated and for reference only. Costs may vary.

Notice: 3M may modify or discontinue this Program at any time without notice.

No Warranties: 3M MAKES NO WARRANTIES, EXPRESS OR IMPLIED IN CONNECTION WITH THIS PROGRAM, INCLUDING BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE.

Limitation of Liability: Clean Harbors is solely responsible for the proper handling and disposal of 3M Fluids under this Program. 3M shall not be responsible for, nor have any liability in connection with, returned fluids or Clean Harbors' performance under this Program, other than the obligation to make the payments described above. Except where prohibited by law, 3M will not be liable for any loss or damage arising from this Program or 3M products, whether direct, indirect, special, incidental, or consequential, regardless of the legal theory asserted, including warranty, contract, negligence and strict liability.
