Scotch® Cable Jacket Repair Tape 2234

Tough Industrial Environments Demand a Tough Tape

Scotch® Cable Jacket Repair Tape 2234 has a tough, abrasion-resistant backing for jacket repair on industrial cables, such as flexible portable power cables, draglines, diesel locomotive cable, welding and shipboard cables. Due to abrasive dragging and reeling of these flexible cables, the original jacketing gets damaged often and needs to be repaired. Scotch® Cable Jacket Repair Tape 2234 is flexible and the self-healing property of the mastic keeps out moisture. The versatility of this tape makes it an easy choice for cable jacket repair.

Scotch® Cable Jacket Repair Tape 2234 allows for on-site, quick repair of cables and is proudly made in the U.S.A.

Benefits:

- Durable, flexible
- On-site, quick, universal cable repair
- Abrasion, water, UV, chemical and oil-resistant, heavy duty backing
- No heat required
- Moisture-resistant, self-healing, flame retardant mastic
- Will not corrode copper or aluminum conductors
- UL Recognized 220°F (105°C) Temperature Rating

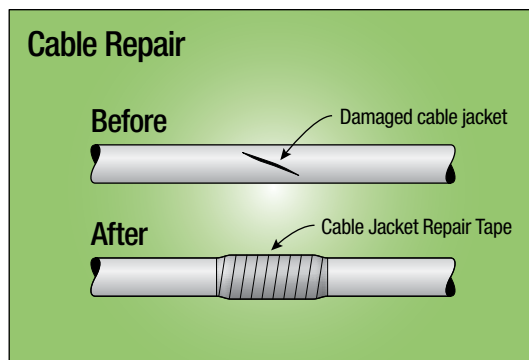

Uses:

Key applications include repairing cables in conditions where flexibility, durability, abrasion and notch-resistance, vibration, and chaffing of cables are at a premium.

Target Markets include:

- Transportation (airlines, subways, railyards, shipyards)
- Heavy equipment (draglines on cranes, diggers, crushers, scrap magnets)
- Generators and temporary cable installs — portable/stand-by power (ex: FEMA)
- Underground distribution cable (extra protection)
- Wind farms
- Cell towers
- Oil and gas

Abrasion and moisture resistant flexible, quick on-site cable repairs
