Product Discontinuation
3M™ Full Facepiece 6800PD and 3M™ Full Facepiece 6900PD

On February 1, 2009, 3M Occupational Health & Environmental Safety Division (OH&ESD) will be discontinuing the 3M™ Full Facepiece 6800PD and 6900PD respirators. These respirators are part of a larger pressure demand system that was discontinued in 2007. Although spare parts for these respirators will be discontinued on February 1, 2009, we will continue selling them as long as supplies last.

Sincerely,

A handwritten signature in black ink that reads "John A. Kehoe III".

John Kehoe
Sales Operations Manager
