# Features &

## Benefits

## Cementation Solutions

- High bond strength
- No tooth pre-treatment
- Up to 5 aesthetic shades
- Self-adhesive, moisture-tolerant
- Low risk of post-operative sensitivity
- For permanent cementation of all types of ceramics, composites and metal
- Convenient handling and hygienic, exact dosage with the Aplicap™/Maxicap™ Capsule or the Clicker™ Dispenser

Self-Adhesive Universal Resin Cement

RelyX™ Unicem

InMetric Cell Plus

relyx veneer

**RelyX™ Temp NE/RelyX™ Temp E**  
Temporary Cement

- Good adhesion **and** easy removal of the temporary restoration (RelyX™ Temp NE) and eugenol (RelyX™ Temp E) formulation
- Quick, easy excess removal
- Available in both non-eugenol (RelyX™ Temp NE) and eugenol (RelyX™ Temp E) formulation

**RelyX™ ARC**  
Adhesive Resin Cement

- High bond strength
- Proven adhesive system
- Low abrasion
- Minimal film thickness (12 µm)
- Easy handling
- Easy excess removal
- Governed, exact and hygienic dosage with the Clicker™ Dispenser

**Veneer Cement**  
**RelyX™ Veneer**

- High bond strength
- Customer-preferred delivery and shading system
- Try-in pastes offer excellent colour match to final cured cement
- Outstanding colour stability due to light-cure-only system
- Easy to dispense, apply, seat and clean up

**Ketac™ Cem/Ketac™ Cem Plus**  
Luting Cement

- Strong adhesion
- Low post-operative sensitivity
- Sustained fluoride release
- Easy excess removal
- Available as powder/liquid formulation (Ketac™ Cem)
- Convenient handling and hygienic, exact dosage with the Aplicap™/Maxicap™ Capsule or the Clicker™ Dispenser
