# Introducing Invisible Incognito™ Orthodontic Braces

Incognito™ Orthodontic Braces are placed on the back side of your teeth, so they are completely hidden from view. No one will know that you are wearing braces unless you tell them.

## Customization makes the difference

Incognito Orthodontic Braces are made one patient at a time, one tooth at a time. They are 100% customized to follow the contours of your teeth for comfort and performance. We build your unique prescription, determined by your doctor, into your Incognito Orthodontic Braces so your teeth will move in the most efficient manner possible. Our wires are bent to a precise shape with robotic technology to ensure that you get the results you want.

## Why choose Incognito™ Orthodontic Braces?

- Completely aesthetic, no one will know that you are wearing braces
- Minimal discomfort and speech interference
- 100% customized for the best results
- Customized wires that do not require adjustments often mean fewer appointments and less discomfort throughout treatment
- You will see results quickly

# Frequently asked questions

How are Incognito™ Orthodontic Braces different from other types of braces?

	Incognito™ Orthodontic Braces	Aligners	Clear Brackets
100% customized	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	
Appropriate for most patients	<input checked="" type="checkbox"/>		<input checked="" type="checkbox"/>
Invisible from the outside	<input checked="" type="checkbox"/>		

## Who can wear these braces?

Incognito Orthodontic Braces are a good treatment option for most adults and adolescents who have all of their permanent teeth.

For more information about Incognito Orthodontic Braces, ask your orthodontist.
