

An Introduction to 3M™ Scotchkote™ Pipe Coatings

3M E Wood, Corrosion Protection Products, 3M United Kingdom plc (formerly E Wood Ltd) has been manufacturing coatings since 1882. For over 45 years, 3M E Wood has specialised in the development and manufacture of liquid internal and external pipe coatings under the COPON Pipelinings brand.

Scotchkote Pipe Coatings (formerly COPON Pipe Linings) are internationally recognised as being of the highest quality and are approved and used worldwide by major Gas, Oil, Water, Engineering and Consulting companies.

Constant in-depth research and development is carried out in the state-of-the-art 3M E Wood Laboratories to meet the changing and ever more exacting requirements of the Gas, Oil, Water and Petrochemical Industries.

Scotchkote Internal Pipe Coatings have been applied worldwide to over 140,000 kilometres of diverse service pipelines and as a result are recognised as virtually synonymous with “Internal Pipe Coatings.”

The Scotchkote Pipe Coatings range includes solvent-based, high solids, solvent-free epoxy and polyurethane coatings. Scotchkote Pipe Coatings are supplied to pipe mills and pipe coaters worldwide.

3M E Wood offers a range of external pipe coatings, which meet the rigorous requirements of external pipe protection, including excellent resistance to cathodic disbondment. Scotchkote External Pipe Coatings (formerly COPON External Pipe Coatings) are designed for pipe exteriors, fittings, valves and for field joint/welds and have been supplied for projects worldwide including Europe, Middle East, Indonesia and Asia.

3M and Scotchkote are trademarks of 3M Company. All other trademarks used herein are the property of their respective owners.

Important Notice

Before using this product, you must evaluate it and determine if it is suitable for your intended application. You assume all risks and liability associated with such use.

Warranty; Limited Remedy; Limited Liability.

3M's product warranty is stated in its Product Literature available upon request. **3M MAKES NO OTHER WARRANTIES INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.** If this product is defective within the warranty period stated above, your exclusive remedy shall be, at 3M's option, to replace or repair the 3M product or refund the purchase price of the 3M product. Except where prohibited by law, 3M will not be liable for any indirect, special, incidental or consequential loss or damage arising from this 3M product, regardless of the legal theory asserted.
