ADVISOR

3M ESPE

CLINICIANS REPORT

96% of evaluators rated Protemp™ Plus Temporization Material Excellent or Good and worthy of trial by colleagues. 78% stated they would incorporate Protemp plus into their practice.

Comments:

- Quick intraoral set — 1 minute, 40 seconds.
- Less need to polish — can be left in VPS for up to 5 minutes resulting in less oxygen inhibition.
- Temporaries are strong
- Easy handling and easy to use
- Good variety of shades

THE DENTAL ADVISOR

The November 2009 issue gave Protemp Plus temporization material a +++++½ rating.

Comments:

- Easy to use and produces a very strong and durable temporary restoration.
- Superior marginal detail and resistance to distortion/tearing.
- Gloss is adequate without polishing for posterior provisional restorations; anterior restoration need minimal polishing.
- Shades are good but are bright (high value) and opaque
- Sticks to adjacent teeth

REALITY NOW

A recent issue of this publication gave Protemp™ Plus Temporization Material a 4.5 Star Rating.

Comments:

- Shines with alcohol if you don't finish it
- Nice consistency and handling
