### Technical Broadcast

BROADCAST NO.: T13-013

Date: September 19, 2013

Issued by: Skip Preston, 3M Regulatory Affairs and Product Responsibility

**TITLE: MSDSs NOT REQUIRED FOR ARTICLES**

**DESCRIPTION:** The Occupational Health and Safety Administration's (OSHA) Hazard Communication Standard (29 CFR 1910.1200 (b)(6)(v)) defines an article as a manufactured item other than a fluid or particle; (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical, and which does not pose a physical hazard or health risk to employees.

When used under reasonable conditions and in accordance with the directions for use, the products listed below should not present a health and safety hazard. However, use or processing of the product in a manner not in accordance with the directions for use may affect its performance and present potential health and safety hazards.

The following products meet the OSHA definition of an article, and do not require a MSDS:
