Headset Repair Guide

3M™ Wireless Communication System Models XT-1 and C1060

When 3M repairs your headset, you are guaranteed that only 3M parts are used by highly-trained 3M certified technicians.

- Genuine 3M manufactured parts — no cloned replacements.
- Full refurbish is standard, not just fixing the broken part.
- Choose 3M Depot Repair or On-Site Field Support.
- 3M quality and service you can rely on.

**Our trained and certified technicians
have the badge to prove it.**

Ask your 3M Dealer for 3M parts!

Headset Model XT-1 Shown
(Similar configuration for Model C1060)

**If you see the 3M logo,
you have genuine 3M parts!**

3M Batteries and Battery Chargers now UL approved!

Batteries should be replaced every 18 to 24 months. To determine the age of your 3M Batteries look for the heat stamped code on the back of the battery. Read the code as follows: The first two digits indicate the week of the year the battery was manufactured. The last digit indicates the year the battery was manufactured. Example: 12T9 is read as week 12 of 2009.
