Fire Protection Fluid

3M™ BLUE SKY™ WARRANTY

Limited Warranty: 3M warrants, for a period of 20 years, that the use of 3M™ Novec™ 1230 Fire Protection Fluid (the "Product") that is installed in an approved* fire suppression system or equipment will not be banned from or restricted in use as a fire protection agent due to the Product's (a) ozone depletion potential (ODP) or (b) global warming potential (GWP). The Warranty will run from the date of installation and will be subject to the terms and conditions set forth below, including the Registration Requirement. If the Product fails to conform to the above Warranty, 3M will refund the purchase price of the Novec 1230 fluid, not to exceed \$40 per Kg; provided, however, this Warranty will not apply if 3M determines that there is no chemical clean fire protection agent available on the market that has ODP or GWP that are more favorable than the Product. The remedy provided in the previous sentence is the exclusive remedy available if Product fails to conform to the Warranty. This Warranty is provided only to the original purchaser of the Product or the fire protection system in which the Product was originally installed: this Warranty is not transferable or assignable.
