

RelyX™ Unicem 2 Automix

Self-Adhesive Resin Cement

Chairside Solution for CAD/CAM

The next generation cement from 3M ESPE — RelyX™ Unicem 2 Automix Self-Adhesive Resin Cement

Dentists worldwide have put their trust in RelyX™ Unicem Self-Adhesive Resin Cement based on its proven 7 year clinical history, over 50 million applications, innovative formulation and top ratings.¹ As the world's **most clinically proven self-adhesive resin cement**, its success has earned the trust of dental professionals and opinion leaders for self-adhesive cementation.

With ongoing commitment to innovation and performance, 3M ESPE created the next generation cement: RelyX™ Unicem 2 Automix Self-Adhesive Resin Cement. **Featuring enhancements to bond strength, mechanical properties and esthetics; the innovative formulation delivers an even higher level of performance** which is ideal for inlays/onlays fabricated from a variety of materials such as glass ceramic and composite.

¹ "2010 Top Long-term Performer" award from *The Dental Advisor*, "2008 Townie Choice Award" for Cementation.

3M ESPE

Strength, performance, convenience and simplicity — key factors for clinical success

RelyX™ Unicem 2 Automix Self-Adhesive Resin Cement delivers **high adhesion**, **resistance to discoloration**, **long-term stability** and **virtually no post-operative sensitivity**. The RelyX Unicem 2 Automix cement syringe delivery system provides easy handling and flexible dose dispensing. Together, they provide consistent quality, reliability and efficiency.

Featuring enhancements:

- Color stability/stain resistance
- High abrasion resistance/low wear
- Strong: improved flexural strength
- Virtually no post-operative sensitivity
- Convenient automix

Additional advantages:

- No preconditioning required — helping eliminate variability
- Easy removal of excess
- Endo tips allows easy application directly into endodontic cavity
