Dentists confirm the new capsules are easy to use.

In field evaluations, dentists confirmed:

- They get the same great handling from the capsules as they did from the syringes. 60% of dentists rated the flow of Filtek™ Supreme Ultra Flowable Restorative better than Tetric EvoFlow.*

- The material is easy to dispense from the capsules.

- The capsules allow good visibility into the prep.

Perfect companions.

From nanotechnology to ideal shade match, Filtek Supreme Ultra Flowable Restorative is the perfect companion to our leading composite Filtek™ Supreme Ultra Universal Restorative. The flowable is available in the 12 most commonly selected shades: A1, A2, A3, A3.5, A4, B1, B2, C2, D2, White, Extra White and Opaque A3 (which makes a great base/liner).
