3M™ Maintenance Sorbents
3M maintenance sorbents are designed to absorb nonaggressive liquids—making them ideal for maintenance. They’re lightweight and versatile and take just minutes to put in place. Maintenance sorbents are dust-free and contain no abrasive granules that can damage equipment. 3M offers many different configurations:
- Pads and production pads
- Sorbent-folded
- Rolls
- Pillows
- Mini-booms
- Rugs
- Drum cover

3M™ Chemical Sorbents
These multipurpose sorbents are powerful enough to handle most acids (including hydrofluoric acid), bases, coolants, and many other hazardous fluids. And because 3M chemical sorbents are made from chemically inert sorbent material, they’ll resist reacting with most chemical liquids and the not-so-common chemicals—making them the safer choice. They also can be incinerated, leaving less than 0.2% ash.
- Sorbent-folded
- Sorbent-folded spill kits
- Pads
- Rolls
- Spill response packs
- Pillows
- Booms
- Particulate

3M™ Petroleum Sorbents
3M petroleum sorbents are the right solution for emergency situations and outdoor maintenance applications. They’re ideal for cleaning up petroleum spills on land and on water. And they’re easy to use. All you have to do is set the sorbent down and let it go to work for you. Because of their high liquid capacity, you won’t have to change the sorbent as much—saving both material and labor costs.
- Sorbent-folded
- Sorbent-folded spill kits
- Booms
- Double booms
- Sweeps
- Rolls
- Pads
- Static resistant sorbents
- Particulate
- Pillows

Folded Sorbent Storage Rack
- Convenient
- Mounts to wall or other flat surface 16” on center
- Dispensing options
- Sorbent where you need it, yet out of the way
Failure to properly handle and dispose of sorbents contaminated by hazardous materials can result in serious physical injury or death and/or environmental harm. For proper handling, consult the Material Safety Data Sheet for the material absorbed, applicable safety and health standards, contact your supervisor, or call 3M at 1 800 243-4630. To reduce the risk of serious physical injury or death, always use respiratory protection and protective clothing appropriate for handling the material to be absorbed. Transportation and disposal of spent sorbents must comply with all applicable federal state and local laws and regulations.

CAUTION:
Sorbents may become slippery when used on flooring. Do not walk on sorbent or place in high traffic areas.
