

Waste-To-Energy Program™

Turn used 3M™ Sorbents and Respirators into Usable Energy in One Easy Step.

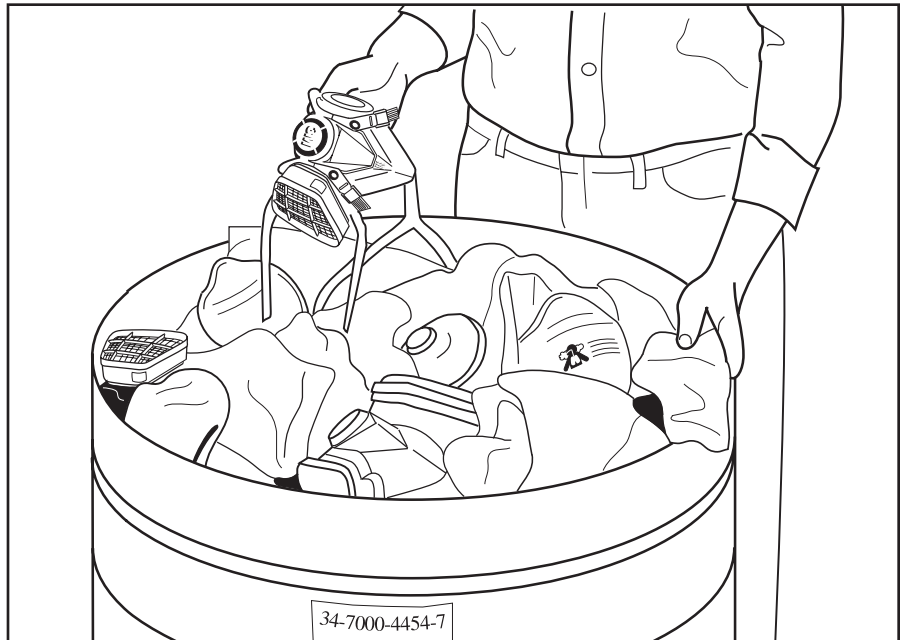

Issue Date 01/01/04

Improve your waste management program with just one call.

Now you can easily turn 3M™ Sorbents and Respirators into usable energy. With just one call, you can set up a comprehensive waste-to-energy program with Univar USA—one of the nation's leading recycle and disposal companies with their ChemCare® services.

By teaming up with Univar USA, you'll be able to rely on their professional ChemCare services to develop a comprehensive plan to recover your waste.

Univar USA will develop a direct contractual relationship for you between them and their TSD disposal partner to meet your specific needs. This contract will include extremely broad financial indemnification. In addition, a third party auditor will do a thorough, regularly-scheduled environmental and financial audit.

The 3M™ Waste-To-Energy Program™ requires approved DOT 17H or UN 1A2 open head drums for solids. Please call if you need assistance in locating a supplier of re-conditioned drums or alternate containers.

3M Sorbents and Respirators make waste management so much easier.

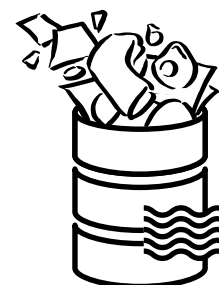

3M™ Multipurpose Sorbents

- Folded sorbent is really four different sizes in one convenient easy-to-manage box. 3M sorbent quickly absorbs more liquid with less product, lowering cleanup costs, *and* results in source reduction.

- Includes all forms of 3M sorbents.

3M™ Respirators

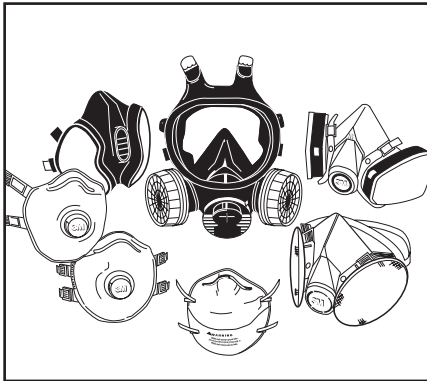

- Another simple 3M solution to help you manage your respiratory protection program.
- Includes 3M disposable and reusable respirators and components.

WASTE-TO-ENERGY™ PROGRAM

3M™ High-Capacity Sorbents absorb more liquid than most other sorbents on the market today.

3M's full line of respirators can be converted into usable energy in the ChemCare® disposal service.
