Featuring adhesive with over 10% bio-based content, Scotch® Recycled Corrugate Tape 3073 not only improves your packaging versatility but can help you meet your company's sustainability goals.

Problem Solved!

Scotch® Recycled Corrugate Tape 3073 was the only product a major apparel manufacturer found that could stick to recycled corrugate cartons. The result: they went from using multiple strips of tape to using a single strip. And cut their costs by thousands of dollars.

Super sticky. Super versatile.

With environmental standards changing rapidly and companies constantly seeking new ways to reduce costs and improve their environmental footprint, packaging materials are in a constant state of flux. Scotch® Recycled Corrugate Tape 3073 is designed to help you stay on top of the changes:

- Scotch® Tape 3073 is a great solution for today's changing corrugated materials.
- It's ten times tackier than conventional box sealing tapes so it will stick to almost any packaging material you're likely to encounter.
- It's made with an adhesive with over 10% bio-based* content and uses recycled materials in the core to help with your sustainability goals.

Scotch® Box Sealing Tapes have been making manufacturer's jobs easier for decades. Now you can rely on Scotch® tapes to help you stay on top of industry changes and meet your sustainability goals, as well.

*Bio-based content is determined using ASTM-D6866-10

Scotch® Recycled Corrugate Tape 3073

The Scotch® Box Sealing Tape promise:

- Quality
- Sustainability
- Service and Support

Scotch® Recycled Corrugate Tape 3073 can be applied by hand for low volume packing with a hand-held tape dispenser or with a 3M-Matic Case Sealer for high productivity packing.

Tape	Color	Backing	Adhesive	Adhesion to Steel oz./in.	Tensile Strength lbs./in.	Elongation at Break %	Total Thickness mils
3073	Clear	Polypropylene	Synthetic Rubber - 10% bio-based content	46	30	160	2.6

PRODUCT USE: All statements, technical information and recommendations contained in this document are based upon tests or experience that 3M believes are reliable. However, many factors beyond 3M's control can affect the use and performance of a 3M product in a particular application, including the conditions under which the product is used and the time and environmental conditions in which the product is expected to perform. Since these factors are uniquely within the user's knowledge and control, it is essential that the user evaluate the 3M product to determine whether it is fit for a particular purpose and suitable for the user's method of application.

WARRANTY AND LIMITED REMEDY: Unless stated otherwise in 3M's product literature, packaging inserts or product packaging for individual products, 3M warrants that each 3M product meets the applicable specifications at the time 3M ships the product. Individual products may have additional or different warranties as stated on product literature, package inserts or product packages. 3M MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE. User is responsible for determining whether the 3M product is fit for a particular purpose and suitable for user's application. If the 3M product is defective within the warranty period, your exclusive remedy and 3M's and seller's sole obligation will be, at 3M's option, to replace the product or refund the purchase price.

LIMITATION OF LIABILITY: Except where prohibited by law, 3M and seller will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence or strict liability.
