

Sticking up for America

There is one, and only one, general use vinyl electrical tape made in America: 3M™ Temflex™ Vinyl Electrical Tape 1776.

3M Temflex Tape 1776 can be used for both indoor and outdoor applications. With its quality construction, it can be used in many applications. Use it for low voltage electrical insulation, protective jacketing for medium voltage cable splices and many other uses.

So if you're looking for a general use vinyl electrical tape that is made in the USA, choose 3M™ Temflex™ Vinyl Electrical Tape 1776.
