

Virtually invisible.

A Solution for Service Providers

**3M**

**Just like the One Pass Mini.**

**Introducing the new 3M™ One Pass Mini Fiber Pathway.**

It's small, discreet (practically invisible) and incredibly versatile, with an exclusive 3M adhesive that sticks to almost any wall surface, including painted concrete. The One Pass Mini delivers triple play services inside a residence and can be used with or without the 3M™ One Pass Fiber Pathway hallway solution, part of the 3M Total Package.

Actual size

*The 3M™ One Pass Mini Fiber Pathway almost disappears into the background for an aesthetically-pleasing broadband solution.*

**3M™ One Pass Fiber Pathway hallway solution**

*3M™ One Pass Mini Fiber Pathway's easy installation*

**The Total Package**

The 3M Total Package is the full-fiber MDU broadband solution for both inside and outside the living unit. It combines the new One Pass Mini Fiber Pathway for inside living units with the One Pass Fiber Pathway hallway solution and is connected by the fast and easy-to-install 3M™ No Polish Connector.

**3M™ No Polish Connector**

**With the 3M Total Package,  
deploying fiber is as fast and easy as...**

**1.** The 3M™ One Pass Fiber Pathway hallway solution enables one crew to install one floor of fiber in just one pass. For up to 35% in savings. Each floor.

**No staples, no saws,  
no hammers, no kidding.**

Both 3M™ One Pass Fiber Pathways use exclusive 3M adhesive technology to provide a strong, durable bond between the product and wall surface. There's no need for labor-intensive crown molding or ductwork and thus, no need for noisy saws, hammers or staples. So tenant disturbances are kept to a minimum.

**Handles corners with ease.**

Corners are no longer a problem with 3M™ One Pass Fiber Pathway's bend-insensitive fiber. Interior and exterior corner supports ensure the correct fiber bend radius and optimal signal integrity.

**Small is beautiful.**

The One Pass Hallway is small (about the width of a pencil), light, flexible, and paintable and comes equipped with factory-installed fiber.

The new One Pass Mini is even smaller. So small, it's virtually invisible.

*Both 3M™ One Pass Fiber Pathways can be painted, which helps them blend into the wall surface.*

### **The Network of Networks**

The 3M Total Package is just one of countless customer-centric innovations from the 3M Network of Networks. A coordinated and connected system of five communications networks (FTTH, xDSL, CATV, Wireless and Enterprise) and 45 technology platforms from a world leader in communications technology.

3M is a trademark of 3M Company.
