

3M™ Bair Hugger™ Therapy
Full Access Underbody Blanket
Model 635 and Sterile Model 637

Warm From Below

The full access underbody blankets are positioned on the procedure table before the patient arrives in the room. These revolutionary designs deliver unrestricted patient access and the clinical flexibility needed for complex and routine surgeries where the patient is in a supine, lateral or prone position such as trauma, cardiothoracic and cosmetic procedures.

3M™ Bair Hugger™ Therapy Full Access Underbody Blanket Model 635 and Sterile Model 637

Features

- Pass-through slit design allows flexible patient positioning and the use of a drawsheet
- Fluid outlets minimize pooling of fluids on the surface of the blanket
- Outer edges of blanket draw up next to patients, surrounding them in warmth
- Perforated area at head of blanket can be removed to accommodate a full prone position
- Adhesive strips and tuck flaps secure the blanket to the OR/procedure table
- Two pre-sealed hose ports at either end of the blanket provide options for hose placement
- Generously-sized clear head drape retains warmth around patient's head and arms
- Foot pad protects feet from thermal injury
- Sterile full access design is ideal when a standing surgical prep is employed
