PRODUCT CLINICAL DATA SUMMARY
Product Number 9945
3M Hydrocolloid Adhesive Tape
Effective: February 2005

A structurally similar product, using a different backing, has been subjected to the following safety evaluations:

**In Vitro Cytotoxicity (Agar Overlay)**

**Results:** 1.0/1.0

**Acute Primary Skin Irritation on Albino Rabbits**

**Results:** 1.5/8.0.

**Acute Intracutaneous Irritation in Albino Rabbits**

**Results:** No irritating leachables in test mediums, irritating when injected intracutaneously.

**Acute Systemic Toxicity in Albino Mice**

**Results:** No toxic leachables.

**Repeated Insult Patch Test (Draize) in Humans**

**Results:** No subjects showed evidence of sensitization.

These tests are in accordance with the ISO 10993 Part-1 "Biological Evaluation of Medical Devices", which is recognized by the FDA as a consensus standard, to demonstrate biocompatibility.

It is the responsibility of our customers to determine the final suitability of our products for their application.
