

Digital Management

For Precise Treatment

Digital Solutions for Today's Modern Practice

Unitek™ TMP is an advanced orthodontic software platform for digital model management, treatment planning and efficient ordering of the 100% customized Incognito™ Appliance System. Unitek TMP brings the power of technology to your fingertips by providing high-quality 3D digital models, tools for orthodontic treatment planning and customized ordering. Through advanced technology and design, Unitek TMP provides you with the opportunity to streamline your treatment planning and maximize your office efficiency.

Efficiency Through Technology

The objective of the development of Unitek™ TMP was to create an advanced software program that could enable orthodontic specialists to take their practice and processes into the digital realm. With the implementation of the Unitek TMP platform, practices can:

Digital Models

- Virtually display, analyze and archive digital study models for analysis and treatment planning
- Enhance patient consultations with 3D digital models
- Increase office productivity and efficiency through digital workflows
- Reduce onsite storage through the reduction of plaster models
- Manage patient data and integrate with practice management systems

Incognito™ Appliance System

- Receive 3D digital model setups for the Incognito™ Appliance System
- Customize and manage Incognito™ System cases digitally
- Communicate effectively and efficiently with the 3M Unitek lab
