3M™ Precision Masking Tape

Engineered  
For Precision

Sharp, Clean, Precise Paint Lines

3M™ Precision Masking Tape is engineered with an ultra-thin, exceptionally smooth paper backing, making it ideal for producing sharp paint lines when used with both solvent and waterborne paint systems.

The tape is visibly thinner, yet removes from surfaces without tearing or leaving adhesive residue behind.

3M™ Precision Masking Tape - see and feel the difference!

## See and Feel The Difference

3M™ Precision Masking Tape is constructed with an acrylic adhesive to provide excellent UV resistance. The unique construction provides a smooth, even unwind that is easily torn by hand yet strong enough to pull through multiple layers of base and clear coat. The smooth backing and even adhesion allows taping over freshly painted surfaces sooner with less chance of imprint damage.
