

3M Occupational Health and Environmental Safety Division
Why 3M Detection Solutions?

Detection is the first step in identifying where protection may be needed. 3M delivers intuitive monitoring solutions for effective industrial hygiene and safety monitoring programs. Durable, accurate, and easy to use instrumentation makes it simple to report and share data. 3M Detection Solutions delivers a complete program for industrial hygiene and safety monitoring.

3M Detection: Innovatively simple solutions to complex monitoring challenges.

3M Detection:

Innovative solutions, service and support.

Reliable Performance

Our products deliver both accuracy and dependability, with IP65 rated casings for trusted performance in the elements.

Tested to Meet Rigorous Global Standards

Select 3M Detection instruments have been tested to and meet applicable ANSI, IEC and CE standards. Our product line also includes intrinsically safe noise dosimeters, sound level meters, and heat stress monitors for use in hazardous environments.

Committed to Quality

With ISO 9001 registration, as well QMS approvals for ATEX, and IECEx, 3M Detection Solutions is committed to quality. Quest Technologies, Inc., the precursor to 3M Detection Solutions, has been an ISO 9001 registered company since 1994 and an ISO 17025 accredited calibration laboratory since 1999. 3M stands behind our instruments and warrants our products to be free of defect for one year from the date of purchase. Extended warranty programs are also available, as well as annual calibration services that help ensure the proper performance and precision of your instruments.

Trusted Partner

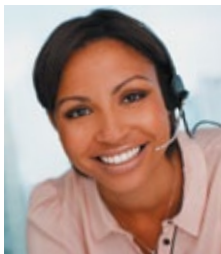

Your organization can rely on the 40 years of instrument research, design and manufacturing experience that Quest Technologies, Inc. brings to 3M. Our product innovations are driven by a clear understanding of industry challenges, customer needs and regulatory requirements.

Qualified Support

Our customers rely on 3M Detection service, support and training, delivered by a highly qualified team of detection specialists. Our team members have an average of 14 years of experience in the detection instrumentation industry, and they are dedicated to helping you make it easy to solve your detection challenges.

With options of in-person post-sales support or 3M eAcademy online training modules, 3M Detection offers the tools to help expand your team's knowledge of industrial hygiene hazards and instrumentation.

Made in the U.S.A.

If "American Made" is important to you, you can choose 3M Detection instrumentation with confidence. Our products are domestically produced at the 3M Oconomowoc, Wisconsin state-of-the-art manufacturing facility with U.S. and imported materials.
