Description

The 3M™ Versaflo™ M-Series Faceshields and Helmets combine respiratory protection with eye and face protection, and with some models, head and hearing protection. The Faceshields and Helmets are designed to be used with an approved 3M air delivery unit to form a respiratory protective device.

M-200, M-300 and M-400 Series Faceshields and Helmets offer the highest respiratory performance requirements when used with specific 3M air delivery units.

Two visor options:

M-927: Visor offers eye and face protection to EN 166 (optical class 1, liquid splash 3 and medium energy impact at extremes of temperature BT)

M-925: Visor meets EN 166 (optical class 1, medium energy impact at extremes of temperature BT, molten metal splash 9)

M-200 Faceshields offer bump cap protection to EN 812 (including electrical insulation)

M-300 and M-400 Series Helmets offer head protection to EN 397 (including lateral deformation and electrical insulation)

M-Series Faceshields and Helmets have a choices of fabrics to suit a wide range of industries and applications

M-106/M-206/M-306 fitted with comfort faceseal. Used for example when spraying, chemical processing or in construction

M-406 fitted with highly durable shroud for construction and heavy industry

M-107/M-207/M-307/M-407 fitted with flame resistant faceseal/shroud for applications with hot particles

3M™ Peltor™ Microphones MT7V/1 and MT53V/1 also available to integrate with range of 3M™ Peltor™ hearing protection. See Microphone Technical Datasheet for more information.

Approvals

Helmet or hood based systems incorporating powered filtering devices or regulator/airflow control units marked CE0086 are type approved and audited annually by BSI, Kitemark Court, Davy Avenue, Knowlhill, Milton Keynes MK5 8PP, UK, Notified Body No. 0086.

Helmet or hood based systems incorporating powered filtering devices or regulator/airflow control units marked CE0194 are type approved and audited annually by INSPEC International Ltd, 56 Leslie Hough Way, Salford, Greater Manchester M6 6AJ, UK, Notified Body No. 0194.

These products are CE Marked to the requirements of either Community Directive 89/686/EEC or European Regulation (EU) 2016/425.

The applicable specific legislation can be determined by reviewing the Certificate and Declaration of Conformity at www.3m.com/Respiratory/certs and www.3m.com/Welding/certs
Standards
The M-Series Faceshields and Helmets meet the performance requirements of the following European standards:

Eye and face protection to EN 166:
M-927 - Optical class 1, medium energy impact at extremes of temperature BT and liquid splash 3.
M-925 - Optical class 1, medium energy impact at extremes of temperature BT and molten metal splash 9.

Bump cap protection (M-200 only) to EN 397 inc. 440V a.c. (electrical insulation).

Head protection (M-300 and M-400 Series only) to EN 812 inc. 440V a.c. (Lateral deformation and electrical insulation).

Hearing protection EN 352-3:2002 (M-100 and M-300 only)
H31P3 - SNR = 28dB; Size designation M/L
Optime I SNR = 26dB; Size designation M/L
Optime II SNR = 30dB; Size designation M/L
Optime III SNR = 34dB; Size designation M/L

X1P5*, X1P5-OR* SNR = 26dB; Size Designation ML (M-100), SML (M-300)
X2P5* SNR = 30; Size Designation ML
X3P5* SNR = 32; Size Designation ML
X4P5*, X4P5-OR* SNR = 32; Size Designation ML (M-100), SML (M-300)
X5P5* SNR = 36; Size Designation ML (M-100), L (M-300)

* Requires use of Z3AF/2 adaptor

Note: 3M™ Peltor™ Microphones also available to integrate with range of 3M™ Peltor™ hearing protection. See Microphone Technical Datasheet for more information.

Respiratory protection (M-400 Series)
- EN 12941 TH3 when connected to 3M™ Versaflo™ TR-602E, TR-302E+ and 3M™ Jupiter™ Powered Air Turbo
- EN 14594 3B when connected to 3M™ Versaflo™ V-100E, V-200E and V-500E Regulators

Respiratory protection (M-200 and M-300 Series)
- EN 12941 TH3 when connected to 3M™ Versaflo™ TR-602E and TR-302E+ Powered Air Turbo. Powered Air Turbo
- EN 12941 TH2 when connected to 3M™ Jupiter™ Powered Air Turbo
- EN 14594 3B when connected to 3M™ Versaflo™ V-100E, V-200E and V-500E Regulators

Respiratory protection (M-100 Series)
- EN 12941 TH2 when connected to 3M™ Versaflo™ TR-602E, TR-302E+ and 3M™ Jupiter™ Powered Air Turbo
- EN 14594 2B when connected to 3M™ Versaflo™ V-100E, V-200E and V-500E Regulators

Note: The M-Series Faceshields and Helmets meet the higher strength (B) requirements of EN14594. They are approved for use with a range of compressed air supply tubes that meet both the lower and higher strength (A and B) requirements.

Applications
The M-Series Faceshields and Helmets can be used with an air-filtering unit to form a powered air respirator system or with a regulator to form a supplied air respirator system.

According to the system chosen, protection is provided against:
- Particles e.g. fine dusts, mists and metal fume
- Gases and vapours
- Particles and gases combined

Typical industries include:
- Agriculture
- Chemical Industry
- Construction and Building Renovation
- Demolition
- Food and Beverage
- Medical and Healthcare
- Metalworking
- Pharmaceutical Manufacturing
- Pulp and Paper Processing
- Smelting and Foundries
- Surface Preparation, Paint Spraying and Coating
- Woodworking

3M™ Versaflo™ M-Series Faceshields & Helmets

Limitations

- Asbestos removal
- In atmospheres containing less than 19.5% oxygen
- Confined spaces (lack of ventilation)
- When the risk is considered to be immediately dangerous for life or health (IDLH)

Technical specifications

**M-400 Series**
Nominal Protection Factor = 500
- EN 12941 TH3 when connected to TR-602E, TR-302E+ and Jupiter Powered Air Turbo.
Nominal Protection Factor = 200
- EN 14594 3B when connected to V-100E, V-200E and V-500E Regulators

**M-200 and M-300 Series**
Nominal Protection Factor = 500
- EN 12941 TH3 when connected to TR-602E and TR-302E+ Powered Air Turbo.
Nominal Protection Factor = 200
- EN 14594 3B when connected to V-100E, V-200E and V-500E Regulators.
Nominal Protection Factor = 50
- EN 12941 TH2 when connected to Jupiter Powered Air Turbo.

**M-100 Series**
Nominal Protection Factor = 50
- EN 12941 TH2 when connected to TR-602E, TR-302E+ and Jupiter Powered Air Turbos.
- EN 14594 2B when connected to V-100E, V-200E and V-500E regulators.

Storage conditions
-30°C to +50°C < 90 %RH

Operating temperature
-10°C to +55°C

Shelf Life*
5 years after date of manufacture

**Spare parts and accessories**

### IMPORTANT NOTICE

The use of the 3M product described within this document assumes that the user has previous experience of this type of product and that it will be used by a competent professional. Before any use of this product it is recommended to complete some trials to validate the performance of the product within its expected application.

All information and specification details contained within this document are inherent to this specific 3M product and would not be applied to other products or environment. Any action or usage of this product made in violation of this document is at the risk of the user.

Compliance to the information and specification relative to the 3M product contained within this document does not exempt the user from compliance with additional guidelines (safety rules, procedures). Compliance to operational requirements especially in respect to the environment and usage of tools with this product must be observed. The 3M group (which cannot verify or control those elements) would not be held responsible for the consequences of any violation of these rules which remain external to its decision and control.

Warranty conditions for 3M products are determined with the sales contract documents and with the mandatory and applicable clause, excluding any other warranty or compensation.
