Flexibility That Works

3M™ Flexible Abrasive Hookit™ Hand Sheets are ideal for hand sanding applications including primer sanding, blend preparation and paint finishing. This product provides excellent cut and finish performance with high flexibility, conformability, and a soft feel. 3M™ Flexible Abrasive Hookit™ Hand Sheets are excellent for sanding panel edges, and for parts including hard-to-reach areas such as bumper covers, door jambs, and door pockets as well as panel edge scuffing applications when machine sanding. 3M™ Flexible Abrasive Hookit™ Hand Sheets have the cut and finish of a conventional abrasive and deliver added flexibility for hard-to-reach areas that will get the job done faster and better.

- Great Cut and Finish Performance
- High Flexibility and Conformability
- Face-Side Color Differentiation by Process
- Soft Feel
- Accessory Pad Included in Every Box
- Can be Used for Wet or Dry Sanding
Direction For Use

The 3M™ Flexible Abrasive Sheets can be used for many different applications. They can be used wet or dry. If used dry, wipe clean frequently to extend the life of the abrasive. The sheets can be used with a block, or accessory pad included in every box, a scuff pad, or any accessory with Hookit™ attachment.
