

You Protect Us. We Protect You.

You  
can't fight

if you can't  
hear.

Hearing is your 360 degree warning sense. A single gunshot near an unprotected ear can affect your ability to hear important communications and sounds that influence survivability, lethality and mission effectiveness.

3M™ Combat Arms™ and 3M™ E-A-R™ Skull Screws™ Earplugs are designed to help meet the demanding hearing protection needs of the armed forces.

Assembled and distributed by New Dynamics Corp.
