

Introducing... Standard Abrasives™ Mini-Brushes

Restore fabricated metal surfaces to their original appearance!

Conventional methods for blending weld traces and other imperfections to restore the mill finish on fabricated steel parts can be time consuming and unpredictable. Now, with the Standard Abrasives™ Mini-Brush, bringing back the original appearance of your metal parts is faster and easier than ever before.

Simply level the weld and set the grain as you normally would. Then, use a Standard Abrasives Mini-Brush on a rotary sander to quickly generate a high-quality finish. No special skills or tool changes needed – just a few quick passes with a single tool, and you're done! Mini-brushes are conformable to most surface geometries.

Save time, improve shop productivity and give your parts a finish that says "quality" – with the Standard Abrasives Mini-Brush.

Standard Abrasives Mini-Brushes are the fast, easy way to restore finishes to their original condition.

- Delivers high-quality finish
- Long-lasting
