

3M™ Accuspray™ System  
Spray Gun Model HG14

# Spraying Simplified

*3M has turned the page on spraying...again! Introducing the HG14 - the next generation in 3M™ Accuspray™ System technology. The HG14 is designed for the application of coatings requiring a finer finish. This innovative HVLP system can provide exceptional results through excellent atomization, resulting in high transfer efficiency with low overspray. Designed to help improve productivity and minimize clean up time - all combined to help improve your bottom line.*

## Easy as Click and Spray

This revolutionary product gives you the performance of a brand new spray gun every time. The innovative technology was designed from the inside out for the efficient and economical application of material. The atomizing heads are designed to deliver a large usable pattern, with very low overspray and exceptional atomization.

The innovative replaceable atomizing head allows for the following benefits:

### Optimizes Efficiency

- Helps minimize overspray
- Reduces gun cleaning time
- Designed to provide excellent transfer efficiency with HVLP technology
- Exceptional atomization

### Boosts Productivity

- Performs like a new spray gun every time you replace the atomizing head
- Delivers premium application
- Lightweight ergonomic design helps reduce technician fatigue

### Maximizes Benefits of the 3M™ PPS™ System

- Reduces overall cleaning time
- Less solvent needed for clean up
- Helps decrease hazardous disposal cost
- Designed to help improve productivity and profitability
