## Achieve a Perfect Texture Match

The 3M™ Rocker Protector Pouch and 3M™ Paintable Undercoating Pouch are used with the 3M™ Accuspray™ HGP Spray Gun Kit to quickly deliver coatings onto any rigid textured panels on the vehicle. The precision delivery of these coatings allows product to be sprayed at any angle to match OEM textured finishes. Because the spray gun is so accurate, less masking is required and overspray is reduced, practically eliminating solvent use needed for clean up.
