

# Driving the Power of 3M Innovation

into Every Repair

Everyday, engineers and technicians around the world choose 3M products as the best solution for their manufacturing and repair needs. From Specifications and Endorsements to Service Bulletins and Recall Notices, 3M is proud to be a trusted partner of the Automotive Industry.

Here's just one example...

# Reference Information

**Organization:** Chrysler Group LLC

## Document

**Type:** Collision Bulletin  
**Name:** Front Fascia Repair when License Plate Bracket has been Removed  
**Number:** 31-004-12  
**Issued:** July 26, 2012

## Description

**Vehicles:** ALL

**Purpose:** After a front license plate bracket is removed from the front fascia, there will be mounting holes in the fascia, which may be deemed cosmetically unacceptable. The fascia will not require replacement for this condition and instead may be repaired and refinished to duplicate new part condition.

Repair processes have been outlined by the adhesive suppliers, and can be found in the plastic repair deck or by visiting the websites of plastic repair material providers.

**Note:** 3M provides this information for REFERENCE ONLY. ALWAYS refer to the original document or the OEM-provided model-specific collision damage repair manuals for complete instructions.
