**Number:** 13B02  
**Issued:** April 2, 2013

## Description

**Vehicles:** 2013 Fusion  
*Applies to certain 2013 model year vehicles equipped with moon roof built from 2/7/2012 through 11/1/2012*

**Purpose:** Certain 2013 model year moon roof equipped Fusion vehicles built at the Hermosillo Assembly Plant between February 7, 2012 and November 1, 2012 may have wrinkled headliners. Differing rates of thermal expansion between the headliner substrate, glue, and other components bonded to the backside of the headliner can cause wrinkles around the moon roof opening. It is important to note that the wrinkling is accentuated by cycling between high and low ambient temperatures.
