to stay bright

What matters more to you: the brightness of turnout gear when it's new and unused—or the brightness after repeated heat exposure?

The data below, gathered from accredited third party testing, show how only **one minute** of 250°F heat can dramatically change the brightness of Reflexite® FTP 1575-S, and how 3M™ Scotchlite™ Reflective Material – Series 9500 Fire Coat Trim maintains its performance, even after repeated exposures.

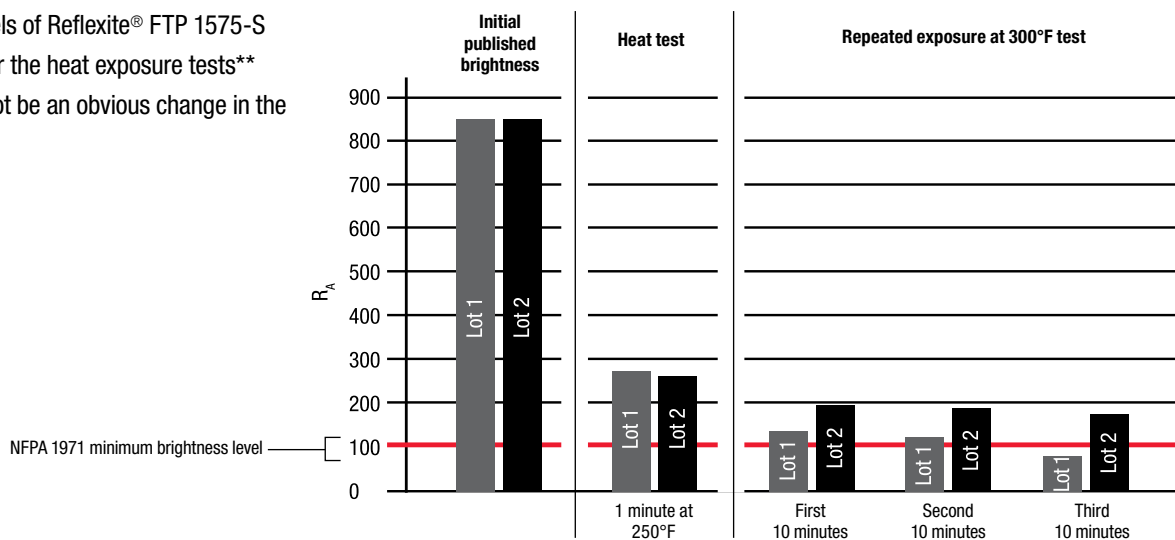

3M™ Scotchlite™ Reflective Material – Series 9500 Fire Coat Trim test** results

The brightness levels of Scotchlite reflective material – series 9500 fire coat trim remained virtually unchanged after one minute at 250°F heat test** and a repeated heat exposure test** at 300°F.

Reflexite® FTP 1575-S test** results

Measured brightness levels of Reflexite® FTP 1575-S dropped significantly after the heat exposure tests** even though there may not be an obvious change in the appearance of the trim.

Contact your 3M Sales Representative for more information or visit Scotchlite.com

*Optimal product performance and lifetime are achieved through the practice of effective care and maintenance procedures, such as those specified in NFPA 1851.

**Testing was performed on two different lots of Reflexite® FTP 1575-S material by an accredited third party test facility, and included a 10-minute cool down period between the 10-minute heat exposure tests at 300°F.

Important Notice

WARRANTY, LIMITED REMEDY AND DISCLAIMER: 3M warrants that 3M™ Scotchlite™ Reflective Material that is stored, maintained and used in accordance with 3M's written instructions will meet the applicable 3M product specifications. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OR CONDITION ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE. If any Scotchlite reflective material does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price.

LIMITATION OF LIABILITY: Except where prohibited by law, 3M will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract or strict liability.

PRODUCT USE: Because of the variety of factors that can affect the use and performance of Scotchlite reflective material, user is solely responsible for evaluating the product and determining whether it is fit for a particular purpose and suitable for user's method of application. User is solely responsible for determining the proper amount and placement of the product. While reflective products enhance visibility, no reflective product can ensure visibility or safety under all possible conditions. 3M may change the product, specification and availability of the product as improvements are made; therefore, user should contact 3M for latest information before specifying the product.
