

3M™ 446 Overhead

The 3M™ 446 Overhoods are offered as an accessory within the range of disposable 3M™ Protective Clothing.

Featuring a white, laminated, low-linting fabric, which is also used on the 3M™ Protective Coverall 4510. The 446 Overhood is designed to help protect the wearers head from limited non hazardous liquid splashes and dusts when used in conjunction with suitable PPE – it may also help reduce contamination of the working environment.

The 446 Overhood features elastics around the face to ensure a good fit.

Key Features

- Elastication around the face area with 4 thread overlock to protect the elastic / wearer
- Low-linting properties
- Made from the same fabric as used on 3M protective coverall 4510
- Fabric has an anti-static treatment with Surface Resistivity no greater than 5.0×10^{10}

Applications

- Catering
- Electronics Manufacturing
- Laboratories
- Cleanrooms

This product is sold as an accessory and is not certified under the Personal Protective Equipment (PPE) Directive. A risk assessment should be carried out by a trained safety professional to ensure that appropriate PPE and accessories are selected and worn correctly. For more information, please contact 3M.
