

# Avagard™

Hand Hygiene Solutions

# Reducing the risk of infection is in your hands.

## Clean hands. Protected patients.

Hands are the most common source of pathogen transmission. That's why 3M developed a portfolio of hand hygiene solutions to reduce the risk of healthcare associated infections. This portfolio includes Avagard™ surgical hand antiseptic — the only hand antiseptic that combines CHG and alcohol, providing rapid antimicrobial kill and proven persistence. 3M's portfolio of hand hygiene antiseptics provides solutions to help you protect your patients.

Fight SSIs from every angle.

## 3M™ Avagard™ Foaming

(Ethyl Alcohol 70% v/v)

### Instant Hand Antiseptic

3M™ Avagard™ Foaming Instant Hand Antiseptic is on your side to reduce the risk of infection caused by transmission of bacteria from the hands.

- Broad-spectrum activity kills greater than 99.999% of harmful bacteria in 15 seconds (*in vitro*)<sup>1</sup>
- Latex glove and CHG compatible<sup>1</sup>
- Dye and fragrance-free
- Versatile Point-of-Care solution to improve compliance

## 3M™ Avagard™ D

(Ethyl Alcohol 61% w/w)

### Instant Hand Antiseptic with Moisturizers

Waterless hand antiseptic that feels like a moisturizer.

3M™ Avagard™ D Instant Hand Antiseptic provides fast, effective bacterial kill without being hard on skin.

- Proven efficacy — meets CDC, AORN and WHO Guidelines
- Broad-spectrum activity kills greater than 99.999% of harmful bacteria in 15 seconds (*in vitro*)<sup>1</sup>
- Emollient enriched-formulation
- Latex glove and CHG compatible<sup>1</sup>
- Dye and fragrance-free
- Versatile Point-of-Care solution to improve compliance

## 3M™ Avagard™

(Chlorhexidine Gluconate 1% Solution and Ethyl Alcohol 61% w/w)

### Surgical and Healthcare Personnel Hand Antiseptic with Moisturizers

The first and only FDA NDA-approved waterless, brushless surgical hand antiseptic.

3M™ Avagard™ Surgical Hand Antiseptic is the only FDA NDA approved hand antiseptic with two proven active ingredients. The immediate bacterial kill of ethanol and the long-term action of chlorhexidine gluconate (CHG) help protect patients for up to 6 hours.<sup>1</sup> The WHO, CDC, and AORN<sup>2,3,4</sup> recommend the use of a suitable alcohol-based hand rub (ABHR) or antimicrobial soap that **ensures sustained antimicrobial activity** before putting on sterile gloves.<sup>2,3</sup>

- Scrubless, waterless surgical hand scrub
- Proven efficacy — provides rapid antimicrobial kill of a broad spectrum of microorganisms, with greater than 99% kill in 15 seconds (*in vitro*)<sup>1</sup>
- Combats regrowth of bacteria
- Proven to suppress microbial regrowth for up to 6 hours, with immediate and sustained activity over time<sup>1</sup>

# Stopping bacteria wherever you are.

Choosing an effective, persistent hand antiseptic can help create a safer facility. So, whether in the operating room, PACU, ICU, or other areas in your facility, remember the basics of practicing hand hygiene to remove germs from your hands.

## Ordering Information

Catalog Number	Product Name	Description	Items/Case
9221	3M™ Avagard™ D Instant Hand Antiseptic – personal size	88 mL (3 fl. oz.)	48 each/case
9222	3M™ Avagard™ D Instant Hand Antiseptic – pump bottle	500 mL (16.9 fl. oz.)	12 each/case
