

# Penta™ Mixing Tip–Red

For all Pentamix™ Automatic Mixing Devices

Here's a tip to make things even easier.

## Benefits

- New insertion geometry to facilitate insertion in all Pentamix™ Mixing Devices
- Now with grey cover plate for increased insertion visibility
- New authentication label on packaging

New authentication label

## What you see is what you get: a visibly improved product.

The new, optimised Penta™ Mixing Tip–Red offers enhanced geometry to facilitate the insertion into all Pentamix™ Mixing Devices. The new grey cover plate (instead of translucent) also provides better visibility and thus gives you better control of the insertion. The familiar easy handling and the outstanding Pentamix mixing quality remain the same.

## Use the original and you're always safe.

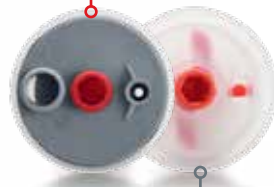

Only the utilisation of the original Penta Mixing Tips–Red will lead to homogeneous and void-free mixing results Pentamix users are familiar with, since they have passed all the strict quality controls at 3M ESPE. Using counterfeit products may lead to inhomogeneous mixing of impression material and leakage during the tray filling process which also impacts the final impression quality.

**Always use 3M ESPE Penta Mixing Tips – Red in your Pentamix device to ensure proper mixing and impression results.**

## NEW Penta™ Mixing Tip – Red!

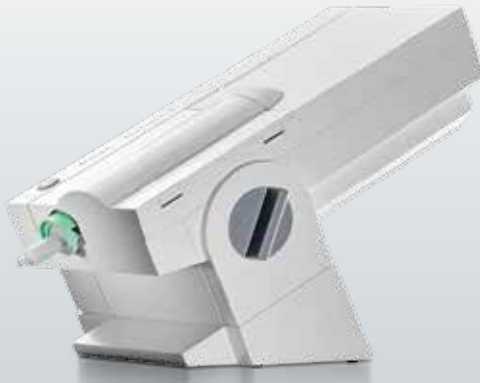

Gray cover plate for better insertion visibility and easier handling.

Old mixing tip

## Compatible with all 3M ESPE Pentamix™ Automatic Mixing Units.

The NEW Penta™ Mixing Tip – Red works with the Pentamix, Pentamix 2, Pentamix 3 and the NEW Pentamix Lite devices.

**Pentamix™ 2**  
Automatic Mixing Unit

**Pentamix™ 3**  
Automatic Mixing Unit

**Pentamix™ Lite**
