

3M™ SecureFit™ Protective Eyewear

Designed to enhance comfort and wearability through 3M™ Science of Fit™ Technology

Self-adjusting

3M™ SecureFit™ Protective Eyewear

Provides a New Level of **Comfort & Security of Fit**

3M understands how challenging it is to source and securely fit a diverse workforce with protective eyewear. As a result, 3M studied the differences in face shapes and sizes throughout the world. Digital models detailed approximately 600 different touch points on the human face that aided in the design of this innovative safety eyewear product. The result is a global game changer in comfort as 3M introduces SecureFit Protective Eyewear.

3M SecureFit Protective Eyewear features the proprietary self-adjusting 3M Pressure Diffusion Temple Technology that helps diffuse pressure over the ear to enhance frame comfort while not compromising the security of fit across a diverse workforce.

Patent pending, 3M™ Pressure Diffusion Temple Technology allows the temples to naturally adjust to individual head sizes

The power to protect your world.™

3M™ SecureFit™ Protective Eyewear

Designed to enhance comfort and wearability through 3M Science of Fit Technology

With patent pending 3M Pressure Diffusion Temple Technology there are no moving parts and nothing to adjust. Simply put on 3M SecureFit Protective Eyewear and feel the difference as it self-adjusts to provide a secure, comfortable fit each time it is worn.

- Stylish design weighs less than 30 grams for lightweight comfort
- Available in clear and grey lens tints
- Anti-fog lens coatings
- Polycarbonate lens absorbs 99.9% UVA & UVB
