

Fasteners

Multi-Purpose

- Each inch of product holds up to 1 lb
- Permanent adhesive on back
- For indoor and outdoor use

Instructions:

Clean mounting surface. Align and connect one piece of hook material to one piece of loop material. Remove liner on one side and apply fastener to item. Remove liner on second side. Press item against mounting surface.

Fasteners can be used on most painted, varnished or otherwise sealed surfaces: drywall, brick, wood, metal or concrete. Fasteners can also be used on bare metal, glass and many plastic surfaces.

Notice: Continued exposure to sunlight can damage fastener.
